Your Safeguard is the Name

The Cause of Much Winter "Ignition" Trouble

Spark plugs aren't always to blame

It is common knowledge among motorists that what seem to be ignition difficulties multiply when "the cold begins to strengthen".

The real trouble, however, in many cases is the fuel—the grade used—rather than the ignition system. Much gasoline that is satisfactory in summer is unsuited for use at low temperature. In fact, the real test of the quality of gasoline is its behavior during the cold winter months.

"Misfiring" is caused either by poor ignition or poor gasoline-don't always blame the spark plugs.

The Surest Way to Overcome the "Slow-Starting" Annoyance

Avoid the repeated necessity of priming your motor and frequent cleaning of spark plugs by using a clean, straight-distilled gasoline-Socony. You'll find that a regular mixture of Socony starts as quickly as a rich, heavy vapor of less carefully refined motor fuel.

Socony Gasoline is straight-distilled and

In cold weather it is particularly essential that your gasoline should have an abundance of

low-boiling fractions. Their absence in much

use. Socony ignites instantly and surely

gets its easy starting and full mileage properties from the continuous chain of boiling-point fractions that it contains. And every gallon, every drop, of Socony is the same, wherever and whenever

Avoid the Offensive Fumes of Unburned Gasoline

When you use Socony you will notice the striking absence of strong odors from the exhaust. The smoky furnes of partially burned gasoline are not only offensive, but are an indication of carbon and other troubles in the motor.

Then, too, the fact that Socony ignites quickly winter or summer discourages the habit of "idling" motors rather than stopping and starting them as should

Always Look for the Socony Sign

The many Socony service stations located in almost every city and town of New York State and New England afford a dependable supply of uniform Socony gasoline at all times. Every Socony sign assures you of superior, straightdistilled gasoline and prompt, courteous service. Get acquainted with your nearest Socony dealer!

but not Confidential

THIS IS LETTER NUMBER SIXTEEN OF A SERIES WRITTEN TO ALL OF YOU AROUT A MATTER WHICH IS VITAL TO YOUR SUCCESS. IF YOU MISSED ANY OF THE PREVIOUS LETTERS AND WOULD LIKE COPIES, I WILL WAIL THEM TO YOU.

A Story About A School Teacher

Citizens of Cranford, New Jersey, lost a good teacher in their High School when Miss Helen Bradbeer felt that she could not afford to continue to work for less than \$25 a week, which was her average salary for the 208 weeks she taught.

A graduate of Barnard College, exceptionally talented, she decided on a business career, after failing to get ahead as a teacher. In four years she had been able to lay by less than \$100. There are always demands on teachers that eat up pretty rapidly their small salaries. What a pity it is that we pay our teachers so little!

Miss Bradbeer obtained an important position in the Consolidated Budget Division of Henry I. Doherty & Company, 60 Wall Street. This, by the way, is a very important department of the Doherty business. Receipts and disbursements are budgeted many months in advance for all of the Doherty enterprises by Louis F. Musil and his able assistant, David W. Harris, who is in direct charge of this department. It is "Safety" to look and to plan

There are three big words in the Doherty organization: WORK. SERVICE, SAFETY. . . .

The exceptional talent of Miss Bradbeer won her a place in this department, where she earns in salary and "perquisites" enough to enable her to lay aside about \$1,.00 a year, which she invests in safe securities and lets interest and special dividends pile up.

In another five years Miss Bradbeer expects to materially increase her holdings of safe securities, because she has developed as a good saleswoman after a course in Dr. L. F. Fuld's School for Security Salesmen, which is operated by the Doherty organization. She was graduated from her class, consisting of over one hundred men and women, with highest honors. She had an average of 95.8 per cent., which college girls, as well as college men and children in public schools, know is "stepping along some."

Dr. Fuld conducts his classes from S to 9 in the morning, so as not to interfere with the regular business day. On Saturdays "he has school" after business hours.

On Junuary 12 Miss Bradbeer addressed, by request, the Wednesday Morning Woman's Club of Cranford, N. J., outlining very clearly the fundamentals of finance, which most women do not know very much about, but seem very anxious to understand.

At social functions and on vacation trips her friends "josh" her a good deal about her "financial mind," but she takes it goodnaturedly, "talks right out in meeting" to them, and generally winds up by selling them some securities. Her small commissions on sales run up during a year to a very snug sum.

The Employees' Ball Last Night. Miss Bradbeer acted as chairman of the committee which had in charge the details of the ball held last night on the Waldorf Roof, which was attended by 500 employees of the New York office - " of Henry L. Doherty & Company and their guests.

. . .

This was a "thrifty" affair. Each employee chipped in \$1.65, which paid \$300 for rent of the Roof, \$150 for the orchestra and the balance for refreshments.

This would not have been possible if it were not a real "gettogether" affair. There was no doubt of the good time enjoyed by all.

Do you want to be thrifty? Do you want to invest the proceeds of your thrift? I think it will pay you to write to Henry L. Doherty & Company, 60 Wall Street, or to call there and get information that will start you on the road to prosperity and happiness.

Sincerely yours, 117 West 46th St., N. Y. City.
